

Data Collection

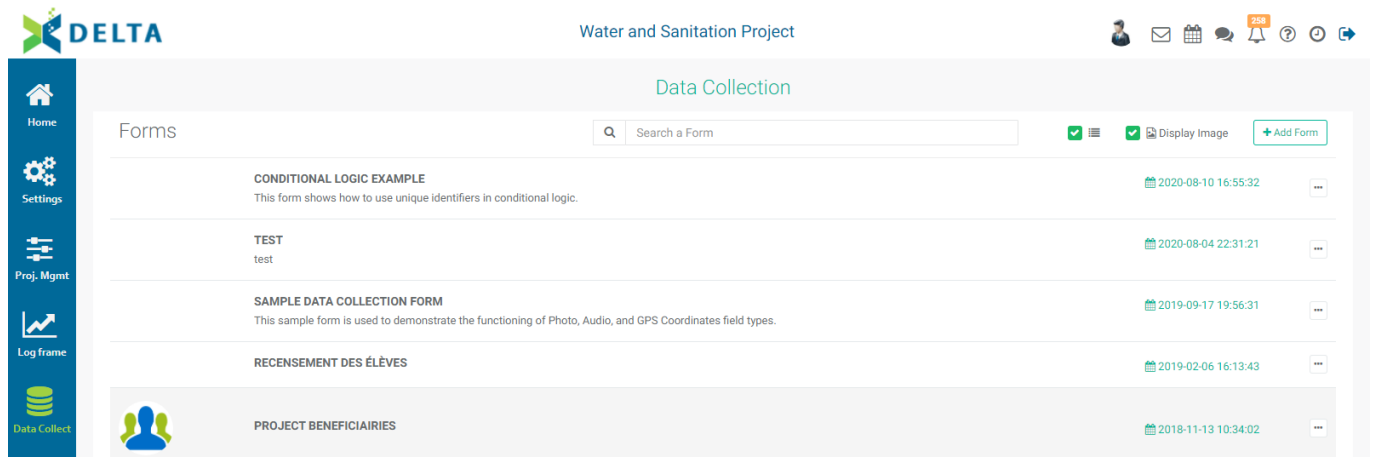

Data Collection: Send Link for External Data Entry

Delta supports offline as well as **remote data collection**.

Offline data collection refers to data collected while the person charged with data collection is out of range of a network, or using another tool to collect the data and converting it for import via an Excel spreadsheet.

Remote data collection makes a form available to users which are not in the system.

From the Data Collection module, open the desired form by clicking its name in the list.

Click the **Collect Data** tab, and select **Send Link For External Data Entry** from the menu.

A field containing a URL for the form will appear.

Data Collection

Select Data collection mode

Display Data Collection Screen

Collect Data via Mobile Device

Send Link for External Data Entry

Import Data From Excel File

Url

https://delta-suivi-evaluation.com/c?k=qenzyhB

Delete

Click the **Copy** icon at right of the field to copy the link for pasting into an email or document.

Recipients of the link will be able to go directly into the form and enter data without being logged into the system.

To make sure that only parties who should be using the form can find it, only data collectors should receive the link to it. Note that Delta uses CAPTCHA to ensure that bots and other possibly nefarious automated tools cannot fill out the form.

A specific example of a remote data collection form is the **Survey** functionality. Checking the Survey

Data Collection

box at upper right in the **Form Design** (Edit Form) screen makes it impossible for a link recipient to fill out the survey more than once.

The screenshot shows the DELTA Form Design interface. The top navigation bar includes 'Home', 'Settings', 'Proj. Mgmt', 'Log frame', 'Data Collect', 'Dashboards', 'Learning', and 'Admin'. The main header displays 'Water and Sanitation Project' and 'PROJECT BENEFICIARIES'. The 'Edit Form' tab is active, showing a form titled 'Project Beneficiaries'. A red box highlights the 'Survey' checkbox, which is currently unchecked. The form fields are listed on the left, and the right side shows a preview of the form with fields for Photo, Name, Age, Gender, Village, and Family members. The 'Name' field is marked as 'Unique'. The bottom status bar indicates 'Currently Connected: 1 User' and 'Copyright DELTA Monitoring & Evaluation ©'.
