Portfolio: Project Tiles and Project List Views

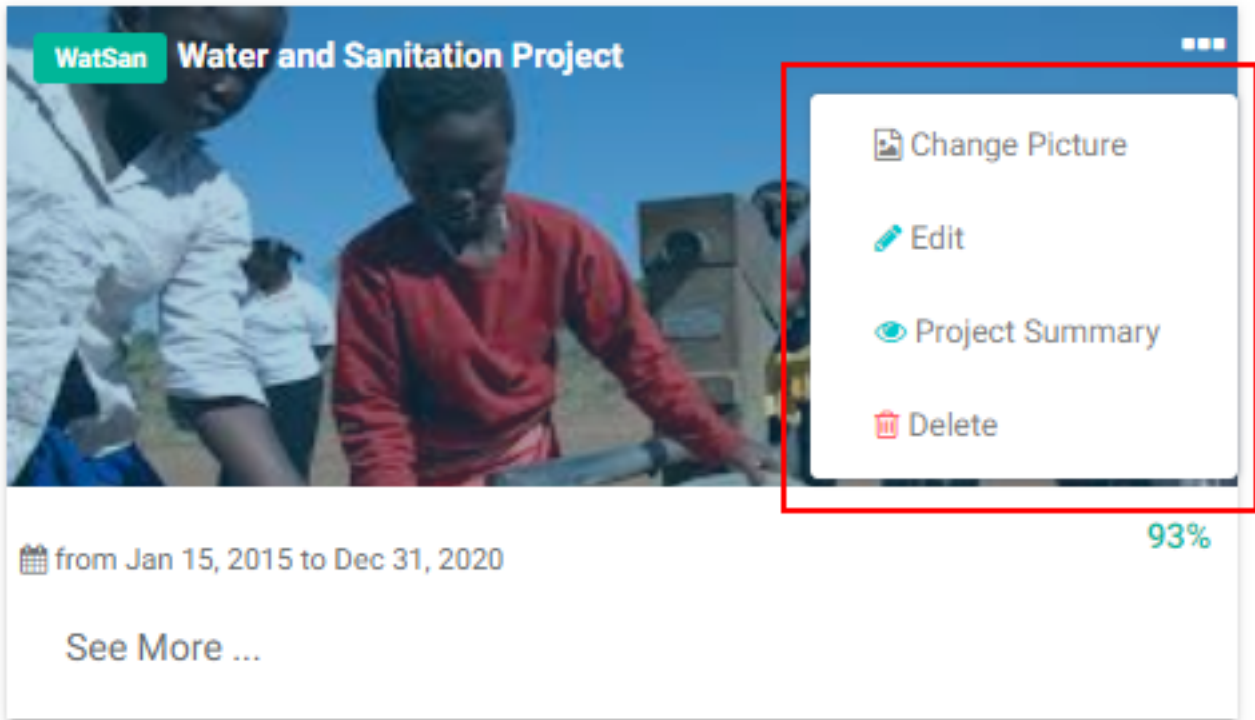

Delta now features both a **Tile** view and a **List** view for projects in the portfolio. Each tile or list item represents a project.

In the **Tile View**, each project's tile shows the project Code, project Title, time range, and percentage of completion.

The project tile also features a **More** icon, denoted by three dots at the upper right corner, and a See More link at bottom left. The More icon in Delta is a **contextual menu** which changes depending on the item on which it appears. On a project tile, the menu allows users to add an image to a tile, edit the project, view a project summary, and delete the project. **NOTE:** once there is data in a project, deleting that project will require an intervention from technical support.

Portfolio Views

To **add or change the picture** for a project tile, select Change Picture from the More menu, navigate to the desired image file, and double-click it to add it.

To **edit a project**, select Edit from the More menu, and edit the project parameters.

The **See More** link at the bottom left of the project tile opens a project summary page, with project details such as time frame, disbursement data, and indicator data.
