

Indicators (KPIs)

Indicators: KPIs Results Framework

The **Indicator (KPIs) Results Framework** is an at-a-glance dashboard of all the indicators in the project. It allows you to drill down into any amount of detail you need for any indicator based on location and type. Two versions are available from the Log Frame screen. Both present the same information in slightly different visual format.

Results Framework 1 displays indicator information in a compact tabular format which also includes graphical elements such as popup graphs.

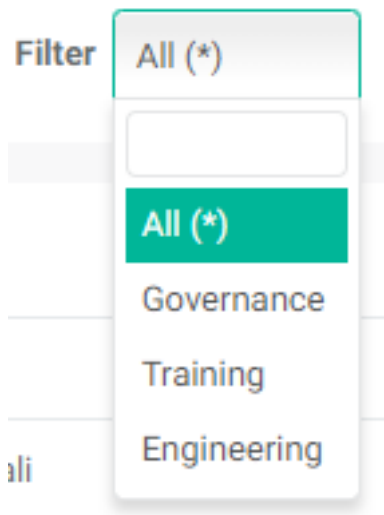

INDICATOR	UNIT	BASELINE	2015		2016	
			Targets	Actuals	Targets	Actuals
001: % of People using water facility	%	3	9	6	25	
002: Indicator 2	Nbre		25	9		
DIAS01: Another example of a disaggregated indicator (parallel)	U					
> Male (Gender)	U					
> Female (Gender)	U					
> 18 < X < 25 (Age)	U					
> 25 <= X < 40 (Age)	U					
> 40 <= X (Age)	U					
G2: % of children under 36 months with diarrhoea in the last two weeks	Pctage		20	17	25	

Results Framework 2 displays log frame information by default, and emphasizes numerical data.

INDICATOR	UNIT	BASELINE	CURRENT	FINAL TARGET
Impact : 001 Reduce death and illness related to Water and Sanitation related diseases in the targeted communities				
001: % of children under 36 months with diarrhoea in the last two weeks (G2)	Pctage	value	13	
		Date	Jan 1, 2015	Dec 31, 2020
		Comment		
002: Reduce death and illness (TEST30-06)	H	value	43	300
		Date	Jan 1, 2020	Dec 1, 2025
		Comment		
Outcomes : 001 Improved access to and use of sustainable sources of safe water in target communities				
001: Another example of a disaggregated indicator (parallel) (DIAS01)	U	value	27	
		Date	Jan 1, 2020	Dec 31, 2020
		Comment		

Both frameworks feature filtering by location. To view only the indicators associated with a specific geographical area, toggle on the Locations list and select the desired location in the list. Both also support filtering by indicator type.

Indicators (KPIs)

To view the progress of a single indicator, click on its graph icon in Results Framework 1 to bring its performance graph.

To see the numbers on which any data point on the graph is based, mouse over it. To dismiss the graph, click the X at upper right of the graph popup window.

Click the vertical More icon at upper right to export either Results Framework dashboard to Excel.
